

RAISSA DESYANDITA T.

SUMMARY

My name is Raissa, a fresh-graduate of Bachelor's Degree who is taking the Front End course at Glints Academy Batch 8. Mainly I learned about JavaScript and ReactJS. I'm also curious for learning a fair amount of UI/UX Design, usually from the online courses and trying to implement it into my tasks. Currently, I am very motivated to enhance my capabilities by taking a new opportunity to start my international career, especially in foreign companies.
